CERTIFIED REFURBISHED MACHINERY

Axon Certified Refurbished Machinery are pre-owned or show/demo products that undergo Axon's stringent refurbishment process prior to being offered for sale.

Each Axon Certified Refurbished Product:

- Is fully tested and evaluated for performance.
- Is refurbished with replacement parts for any defective or worn modules identified in testing.
- Is put through a thorough cleaning process and inspection.
- Is given a new refurbished part number and/or serial number.
- Is placed into a Final QA inspection prior to being added to sellable refurbished stock
